Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

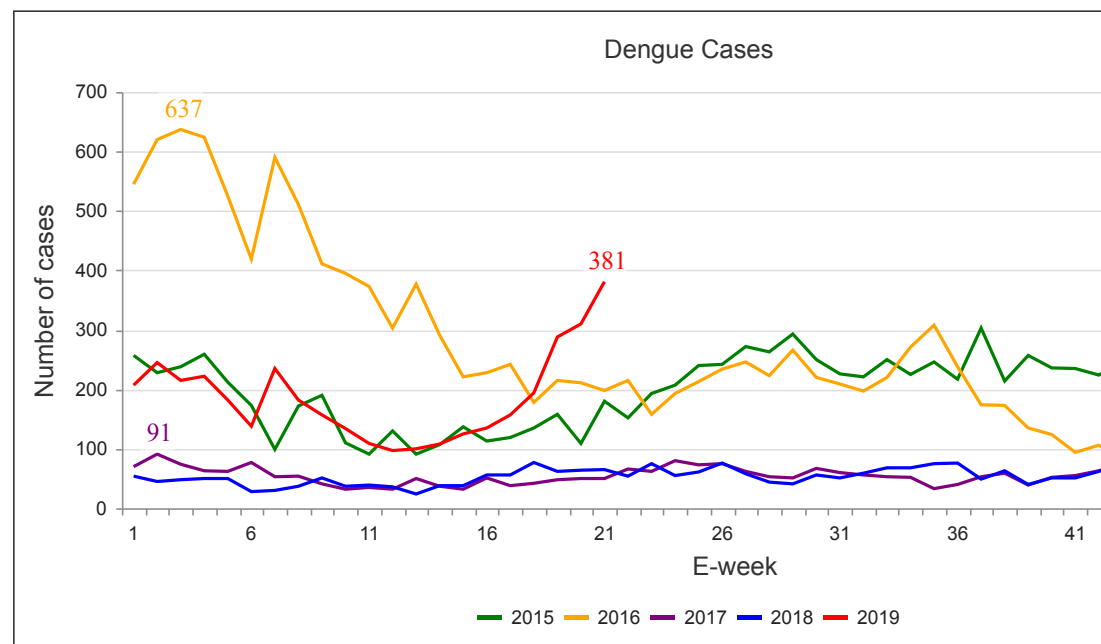

21-May	22-May	23-May	24-May	25-May	26-May	27-May at 3pm
60	82	63	58	46	35	39

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 16 (14-20Apr19)	E-week 17 (21-27Apr19)	E-week 18 (28Apr-04May19)	E-week 19 (05-11May19)	E-week 20 (12-18May19)	E-week 21 (19-25May19)
135	157	194	288	310	381

Cumulative No. of cases for 2019 (First 21 E-weeks): 3921

Compiled by Communicable Diseases Division, Ministry of Health

381 dengue cases were reported in the week ending 25 May 2019, 71 cases more than in the previous week. The number of weekly reported dengue cases have been on an upward trend, and have more than tripled in the past nine weeks. NEA urges all members of the public and stakeholders to take immediate action to keep the mosquito population in check, to prevent any further increase in the number of dengue cases.

As of 27 May 2019, there were 72 active dengue clusters, with the five largest clusters located at:

- Woodlands Ave 6 / Woodlands Circle / Woodlands Cres / Woodlands Dr 60 / Woodlands Dr 72
- Woodlands Ave 6 / Woodlands Dr 62 / Woodlands Dr 73 / Woodlands Dr 75 / Woodlands Ring Rd
- Chai Chee Ave / Chai Chee Dr / Chai Chee Ln / Chai Chee Rd / Chai Chee St
- Geylang Rd / Guillemard Rd / Lor 6, 8, 10, 12, 14, 16, 18, 19, 20, 22, 23 Geylang / Sims Ave / Westerhout Rd
- Bedok Reservoir Rd / Foo Kim Lin Rd / Jln Eunus / Jln Punai / Jln Rimau / Jln Singa / Teo Kim Eng Rd

NEA has conducted multiple rounds of inspections for mosquito breeding in the cluster areas, as well as outreach activities such as community events and house visits. Dengue cluster alert banners and alert posters have been put up around the estates and at the lift lobbies, to heighten awareness of both residents as well as members of the public. NEA will continue to work with Grassroots Advisers, Grassroots Leaders, Dengue Prevention Volunteers (DPVs) and members of the community, to conduct house visits to increase awareness and remind residents to practise the 5-step Mozzie Wipeout.
