Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

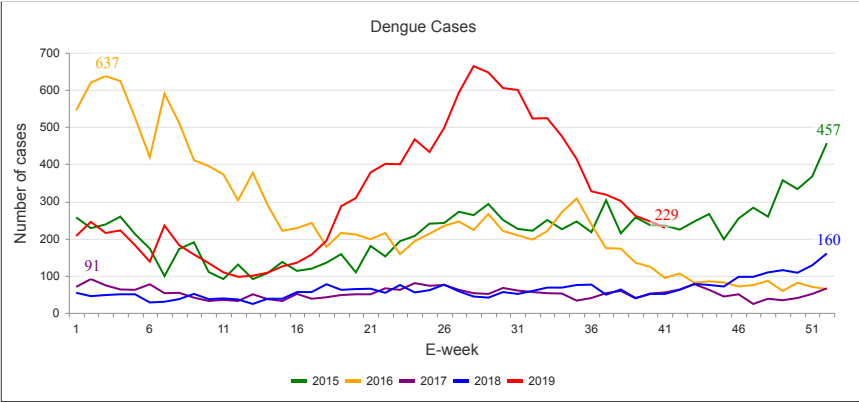

12-Oct	13-Oct	14-Oct	15-Oct	16-Oct	17-Oct	18-Oct at 3pm
24	20	44	37	37	38	17

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 36 (01-07Sep19)	E-week 37 (08-14Sep19)	E-week 38 (15-21Sep19)	E-week 39 (22-28Sep19)	E-week 40 (29Sep-05Oct19)	E-week 41 (06-12Oct19)	E-week 42 (13-18Oct19 at 3pm)
327	318	301	261	246	229	193

Cumulative No. of cases for 2019 (First 41 E-weeks): 12840
--

Compiled by Communicable Diseases Division, Ministry of Health

A total of 12,840 dengue cases have been reported this year (as of 12 October 2019). The number of weekly dengue cases has declined, from a high of 664 in the second week of July, to 229 in the week ending 12 October 2019. Even though the number of reported dengue cases is on a downward trend, we are still fighting large dengue clusters at Choa Chu Kang Ave 2, Jalan Eunus, and Jalan Grisek. Stakeholders are encouraged to remain vigilant, and to take action to remove stagnant water and potential mosquito breeding habitats.

Fighting dengue requires the concerted effort of the whole community, including residents, contractors, and business owners, and all
