Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

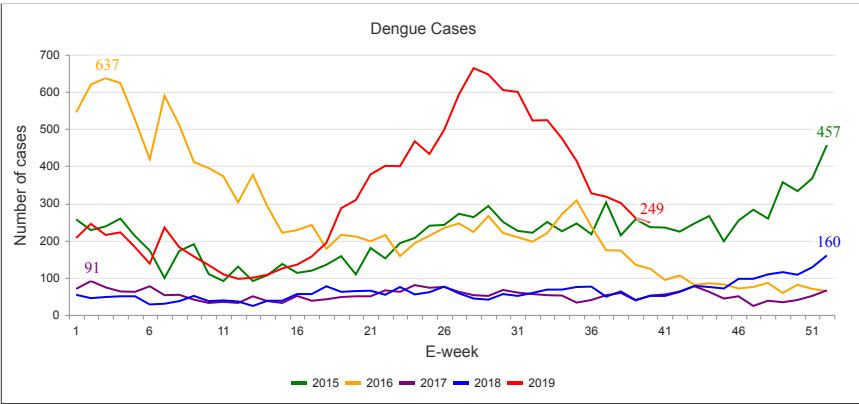

05-Oct	06-Oct	07-Oct	08-Oct	09-Oct	10-Oct	11-Oct at 3pm
19	14	38	40	43	35	23

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 35 (25-31Aug19)	E-week 36 (01-07Sep19)	E-week 37 (08-14Sep19)	E-week 38 (15-21Sep19)	E-week 39 (22-28Sep19)	E-week 40 (29Sep-05Oct19)	E-week 41 (06-11Oct19 at 3pm)
414	327	318	301	261	249	193

Cumulative No. of cases for 2019 (First 40 E-weeks): 12615
--

Compiled by Communicable Diseases Division, Ministry of Health

A total of 12,615 dengue cases have been reported this year (as of 5 October 2019). The number of weekly dengue cases has declined, from a high of 664 in the second week of July, to 249 in the week ending 5 October 2019. Even though the number of reported dengue cases is on a downward trend, we are still fighting large dengue clusters at Choa Chu Kang Ave 2, Jalan Eunus, Bishan St 11 and Jalan Grisek. Stakeholders are encouraged to remain vigilant, and to take action to remove stagnant water and potential mosquito breeding habitats.

Fighting dengue requires the concerted effort of the whole community, including residents, contractors, and business owners all have
