Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

21-Sep	22-Sep	23-Sep	24-Sep	25-Sep	26-Sep	27-Sep at 11am
23	22	55	49	48	27	7

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 33 (11-17Aug19)	E-week 34 (18-24Aug19)	E-week 35 (25-31Aug19)	E-week 36 (01-07Sep19)	E-week 37 (08-14Sep19)	E-week 38 (15-21Sep19)	E-week 39 (22-27Sep19 at 11am)
524	475	414	327	319	303	208

Cumulative No. of cases for 2019 (First 38 E-weeks): 12108
--

Compiled by Communicable Diseases Division, Ministry of Health

A total of 12,108 dengue cases have been reported this year (as of 21 September 2019). 303 cases were reported in the week ending 21 September 2019. As of 23 September 2019, there are 89 active dengue clusters in Singapore. Even though dengue clusters are being progressively closed, we are still fighting large dengue clusters at Choa Chu Kang Ave 2, Jalan Eunus, Ang Mo Kio Ave 3, Bishan St 11, Bishan St 22 and Hougang Ave 1.

Fighting dengue requires the concerted effort of the whole community, including residents, contractors, and business owners, who all have a part to play in preventing and stopping dengue transmission.
