Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

6-Jan	7-Jan	8-Jan	9-Jan	10-Jan	11-Jan	12-Jan 3pm
5	8	13	11	10	11	5

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 48 (26Nov-02Dec17)	E-week 49 (03-09Dec17)	E-week 50 (10-16Dec17)	E-week 51 (17-23Dec17)	E-week 52 (24-30Dec17)	E-week 01 (31Dec17-06Jan18)	E-week 02 (07-12Jan18 at 3pm)
38	34	40	51	66	84	58

Cumulative No. of cases for 2018 (First E-week): 84

Compiled by Communicable Diseases Division, Ministry of Health

84 dengue cases were reported in the week ending 06 January 2018, 18 cases more than in the previous week.

As of 8 Jan 2018, there were 7 active dengue clusters, with the largest cluster involving 57 cases located at Upp S'goon View / Upp S'goon View (Boathouse Residences, Heron Bay, Rio Vista). While NEA continues with inspections of the cluster area, all members of the public and stakeholders are urged to continue to work together as a community to stem dengue transmission. Those infected with dengue should also apply repellent to prevent mosquitoes from biting and picking up the virus from them, and those showing symptoms suggestive of dengue should see their GPs early to be diagnosed.

Source eradication of mosquito breeding habitats and spraying of insecticides to control the adult mosquito population remain key to dengue prevention. NEA, together with the various agencies and other stakeholders represented on the Inter-Agency Dengue Task Force (IADTF), including Town Councils, have been checking and ridding our public areas and housing estates of potential mosquito breeding habitats. NEA encourages everyone to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All stakeholders need to remove stagnant water from our environment, so as to deprive the mosquitoes of their breeding habitats.

All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates can also be found on the Stop Dengue Now Facebook page or myENV app.
