Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

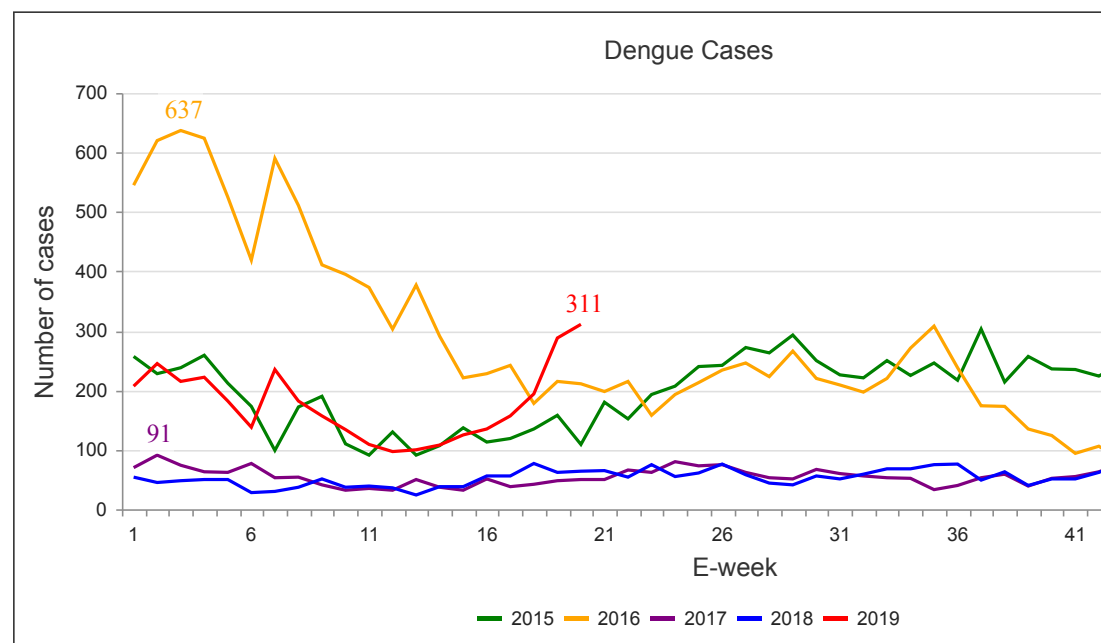

16-May	17-May	18-May	19-May	20-May	21-May	22-May at 3pm
46	37	36	37	35	60	39

Number of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 15 (07-13Apr19)	E-week 16 (14-20Apr19)	E-week 17 (21-27Apr19)	E-week 18 (28Apr-04May19)	E-week 19 (05-11May19)	E-week 20 (12-18May19)
125	135	157	194	288	311

Cumulative No. of cases for 2019 (First 20 E-weeks): 3541

Compiled by Communicable Diseases Division, Ministry of Health

311 dengue cases were reported in the week ending 18 May 2019, 23 cases more than in the previous week. The number of weekly reported dengue cases have been on an upward trend, and have more than tripled in the past eight weeks. NEA urges all members of the public and stakeholders to take active steps to keep the mosquito population in check, to prevent any further increase in the number of dengue cases.

As of 21 May 2019, there were 58 active dengue clusters, with the five largest clusters located at:

- Woodlands Ave 6 / Woodlands Circle / Woodlands Cres / Woodlands Dr 60 / Woodlands Dr 72
- Woodlands Ave 6 / Woodlands Dr 62 / Woodlands Dr 73 / Woodlands Dr 75 / Woodlands Ring Rd
- Chai Chee Ave / Chai Chee Dr / Chai Chee Rd / Chai Chee St
- Guillemard Rd / Lor 8 Geylang / Lor 12 Geylang / Lor 14 Geylang / Lor 16 Geylang / Lor 19 Geylang / Lor 20 Geylang / Lor 22 Geylang / Lor 23 Geylang / Westerhout Rd
- Bedok Reservoir Rd / Foo Kim Lin Rd / Jln Eunon / Jln Punai / Jln Rimau / Jln Singa / Teo Kim Eng Rd

NEA has conducted multiple rounds of inspections for mosquito breeding in the cluster areas, as well as outreach activities such as community events and house visits. Dengue cluster alert banners and alert posters have been put up around the estates and at the lift lobbies, to heighten awareness of both residents as well as members of the public. NEA will continue to work with Grassroots Advisers, Grassroots Leaders, Dengue Prevention Volunteers (DPVs) and members of the community, to conduct house visits to increase awareness and remind residents to practise the 5-step Mozzie Wipeout. Educational pamphlets and insect repellent are distributed to the residents during the house visits.
