## Dengue Cases

It is important to note that the day-to-day numbers fluctuate, as they depend on the number of cases notified each day. Therefore, weekly numbers are a better reflection of actual trends.

Number of Reported Cases

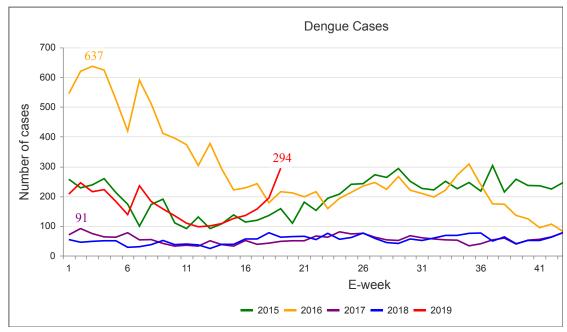

07-May	08-May	09-May	10-May	11-May	<b>12-May</b>	13-May at 3pm

E-week 14 (31Mar- 06Apr19)	E-week 15 (07-13Apr19)	E-week 16 (14-20Apr19)	E-week 17 (21-27Apr19)	E-week 18 (28Apr- 04May19)	E-week 19 (05-11May1
108	125	135	157	194	294

Cumulative No. of cases for 2019 (First 19 E-weeks): 3236

Compiled by Communicable Diseases Division, Ministry of Health

294 dengue cases were reported in the week ending 11 May 2019, 100 cases more than in the previous week. The number of weekly reported dengue cases have been on an upward trend and more than doubled in the past seven weeks. NEA urges all members of the public and stakeholders to take active steps to keep the mosquito population in check to prevent any further increase in dengue cases.

As of 13 May 2019, there were 44 active dengue clusters with the five largest clusters located at:

- Woodlands Ave 6 / Woodlands Cres / Woodlands Dr 60 / Woodlands Dr 72
- Woodlands Ave 6 / Woodlands Dr 62 / Woodlands Dr 73 / Woodlands Dr 75
- Chai Chee Dr / Chai Chee Rd / Chai Chee St
- Guillemard Rd / Lor 8 Geylang / Lor 12 Geylang / Lor 14 Geylang / Lor 16 Geylang / Lor 20 Geylang / Lor 22 Geylang / Westerhout Rd
- $\bullet \ Jln \ Chengam \ / \ Jln \ Gelenggang \ / \ Jln \ Kuras \ / \ Jln \ Leban \ / \ Jln \ Tarum \ / \ Sembawang \ Hills \ Dr \ / \ St \ Nicholas \ View \ / \ Thomson \ Walk$

NEA has conducted multiple rounds of inspections in the cluster areas. as well as outreach activities such as community events and house visits. Dengue cluster alert banners and alert posters have been put up around the estates and at the lift lobbies to heighten awareness of both residents as well as members of the public. NEA will continue to work with Dengue Prevention Volunteers (DPVs) and members of the community to conduct house visits to increase awareness and to remind residents to practise the 5-step Mozzie Wipe-out. Educational pamphlets and insect repellents are distributed to the residents during the visits. While NEA
